-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This action is final.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 13-32 are rejected under 35 U.S.C. 102(b) as being anticipated by Arvidsson (5,035,446 - cited on IDS of 1/20/04).

Arvidsson shows the claimed invention including tilt and length adjusting drive members (20, 21) in the form of threaded rods (23, 27), the threaded rods are connected to brackets (25, 29). Upon actuation of the drive members (20, 21), the steering column either tilts (using drive member 21) or adjusts the length (using drive member 20 which slides the inner column member with respect to the outer column member). An auxiliary member (11) being attached to the inner side of the inner column member in advance (the members must be assembled in advance of installing in the vehicle). The lower portion of the steering column (as at 14) is connected to the subsequent linkages by a universal joint which is inherent in all steering columns of this type (see e.g. Forbes-Robinson et al. 5,992,863)

Response to Arguments

3. Applicant's arguments filed 7/8/05 have been fully considered but they are not persuasive.

Applicant summarizes the invention in each of the independent claims then goes on to say that the applied reference fails to show the recited structure. Applicant states for example, "The foregoing amendment of claim 13 is neither disclosed nor suggested by the Arvidsson patent.". It is the Examiner's position that the cited patent does show all the claimed elements in the independent claims – see the rejection *supra*.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

5. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually
